

Code: ANEC27 – VeloRution Universelle (The Bicycle revolution)

Work type: FEST ENVI CULT **Number of total volunteers:** 6 (with around 30 local vols)

Start date: 25-06-2017 **End date:** 12-07-2017

Description of the partner organising/hosting the project: What is the VeloRution? Velo means bicycle in French, so this is a bicycle revolution! The VeloRution is an individual and collective endeavour. YOU are the Velorution! Let all of us do the VeloRution on a daily basis: - let's leave the car in the garage - let's ride in groups of cyclists so we are more visible. - And let's never forget: a bicycle is legitimate on the road ! It's a good opportunity to: - overturn the balance of power usually discriminating against cyclists - demand more space in urban surroundings for soft transport and living - share and keep developing these ideas - tempt everybody to ride a bike - take over the street and use it together It is important that this event be non violent, participatory, festive and militant.

Description of work: You will be invited to participate in the organisation of the VeloRution demonstration and festival. What is the VeloRution? Velo means bicycle in French, so this is a bicycle revolution!
