ABOUT PROJECT

We will host one EVS volunteer for 12 months from February 2017 till the end of January 2018

Football for Development is a unique concept based on the principle of fair play, equality and teamwork. Our aim is to bring together groups or people from different social or cultural backgrounds. Through football we promote mutual respect and tolerance, not only on the field but also in everyday life. The project is associated with the traditional visit of international volunteers from country outside Europe and their one-month educational tour throughout the country. Together with Czech volunteers they put together a team that organizes tournaments, public events, workshops and other educational activities for children and young people.

Thanks to these football tournaments we manage every year to involve more than 1,500 young people from Prague and other regions. The campaign takes place in June/July each year in few regions of the CZ.
