Description of Workcamp:

The Work Camp will cover two main goals. One is to carry out a theatrical performance with high social content, related to differences between human beings. Another aim is the permanent expression through an artistic mural. In the whole project will be involved campers, volunteers and people with intellectual disability.

The project will consist two main goals:

1) Expression Stage:

By creating the performance we understand using the human skills such a talents, abilities capabilities and by these presenting the emotions such a happiness, sadness, fear, hope etc. of people with- and without disabilities.

The participants, volunteers, campers and people with intellectual disability will be acting by using traditional form such a body language, shadows, reflects (creating sensations, environments and generates movement and stillness); sounds (essential element which reinforces actions, gestures, texts, music etc.) and costumes.

They will have the opportunity to express themselves better, to open on the others (campers on people with intellectual disability and vice versa), it will facilitate them to enter into a dream's world and share it with others.

2) Artistic mural:

We will create an artistic mural with a maximum height of 3,50 meters. The steps will be the following:

- Acquisition of the materials to be used.
- Preparation of the wall for the activity; Bleaching wall with rollers and paint.
- General design having into consideration that it will be related with the theatre performance
- Drawing grids and subsequent painting.
- Once dry, painting over the mural, sticking objects and the elements which will be designed by the volunteers.

The final result, will be the presentation of performances combined with an artistic mural.

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

- The campers will have the opportunity to choose the activity from the following list: Teruel and Albarracín, Alcañiz, Cultural Park in Maestrazgo, Crystal Caves of Molinos, hiking activities in the pools of river Bergantes in Aguaviva, Berge, Alcañiz Lake, Region Matarraña. Mine museum and hiking by river Martin.
- Visits: Iberian Museum, Museum School and Easter Museum of Alcorisa. Excavation Site ""El Cabo" (Andorra).
- Meetings with youth from Alcorisa and Foz Calanda to know their customs, traditions and leisure activities in summer.
- Participation in an activity of children's entertainment in Alcorisa.
- Elaboration of a community activity with massive participation.
- Organization of an accessible activity for people with intellectual disability.
- Festive (celebration) activities in the close area.

ACCOMODATION/FOOD:

The "Criet" means an educational innovation center of the province of Teruel. The center has different kind of rooms for activities, with a capacity to accommodate more than 100 people from which we will use 25 beds (20 for campers and 5 for the staff). There is even an auditorium in the same building that can be used for performance's rehearsal.

The center was created to compensate the possible inequalities among students from rural schools of the Aragonese region. This center also has a spacious dining room, living room, game room, wifi area and access to the gym and sports facilities.

Every day, local cooks will prepare homemade food, which is based on Mediterranean diet, with the possibility to adapt it to any specific diet.

Participants of the work camp will help the staff to set the tables and clean them after the meals.

 - Understanding the specific needs of people with intellectual disabilities and know how to contribute to support them.
 - Encourage cooperation and teamwork in an intercultural group with functional diversity

PROFILE - COMMITMENT OF PARTICIPANTS:

The volunteer who want to be involved in the Workcamp, has to have be committed

with creative skills, be open-minded, willing to know, share activities and moments with people with disabilities and other participants.

As the goals of the project are quite open and wide, it should involve volunteers who like art, creativity, and performing arts. It is not needed to have knowledge on performing arts (however it will be appreciated), the willing to be creative and the motivation in participating in artistic activities is more than enough. Last but not least, they should be open for the corporation with people with intellectual disability.

We hope to see young people ready to enjoy perhaps one of the best summer of their lives, sharing great moments with people from all over the world!

ADDITIONAL INFORMATION:

ATADI is a non-profit organization dedicated to social services to the community and especially to taking care of intellectual disability people and/or at risk of social exclusion. So, during the work camp, most of the times we will carry out activities which include people with intellectual disabilities.

This year we will continue our goal of integration with an art, creating a mural with Iberian motifs together with workcampers and people with intellectual disabilities.
